No. 2690—2908-44.

Simla, the 22nd April 1909.

Resolution.—The following translation of an order passed by the Governor of German New Guinea, regulating the immigration and introduction of non-indigenous natives into the Protectorate of German New Guinea is published for general information :—

TRANSLATION.

Order of November 1st, 1908.

In virtue of section 15 of the Protectorate Law (Reichs-Gesetzblatt, 1900, page 813) and of the Imperial Chancellor's Decree of September 27th, 1903 (Deutsches Kolonialblatt, 1903, page 569), the following is decreed for the Protectorate of German New Guinea:—

Section 1.

Non-indigenous natives may only immigrate or be introduced into the Protectorate of German New Guinea by the ports that are open to foreign traffic.

Any one who wishes to introduce such natives under a definite labour contract otherwise than by the ports that are open to foreign traffic, must obtain the written permission of the registrance authorities (Meldebehorde) of the port of entry.

Ship-masters must present to the registration authorities of the port of entry a list of the non-indigenous natives to be landed there.

Section 2.

Every non-indigenous native immigrating into the Protectorate must within three days after landing report himself to the authorities of the port and make a statement for purposes of identification. Thereupon a certificate will be given to him.

The authorities may order a medical inspection.

If a person who is under the obligation to report himself leaves the Protectorate or changes his domicile within the Protectorate from one district to another, he must announce his arrival and departure in the same manner.

Section 3.

Whoever in the Protectorate introduces non-indigenous natives under a definite labour contract is bound to deliver to the authorities within three days from the landing a copy of the contract and a list of names in duplicate. If there is no labour contract, one must be drawn up before the authorities of the port of landing.

The obligation of making an announcement to the authorities of the place where the work is carried out takes effect in the same manner on the renewal or prolongation of an existing arrangement or contract for working. The authorities may order the natives to appear personally and be medically examined.

The costs of the examination and reception of needy or sick persons into an institution are borne by the employer and not by the official authorities.

The workmen introduced may only be employed after the facts of their having reported themselves and being fit to work have been certified on the second copy of the list of names.

Section 4.

The authorities must supervise the arrangements for working and must especially examine the lodging, provisioning, medical attendance and wages of the workmen. The authorities have the right to undertake inspections or to order inspections to be made by suitable experts or by committees, and to take steps to remove evils. Should the inspection show that the employer is not fulfilling his obligations, he must bear the costs of such inspection.

Section 5.

On the authorities' demand the employer is bound on the termination of the labour contract to send the workmen back to the place where they were engaged, or to pay the costs of the return. This obligation is cancelled after the space of one year from the termination of the arrangement.

The employer is obliged to announce to the authorities the termination of the arrangement and the return of the workmen to their home, and he is obliged to give information on them and concerning each workmen in his service.

The authorities may order a medical examination of the workmen to be sent home to be made at the cost of the employer.

Section 6.

Any workman who after the conclusion of his working arrangement with the employer still remains in the Protectorate, is bound to report himself in accordance with section 2 to the competent authority for his place of residence.

Section 7.

The authorities to whom such reports must be made are the Imperial District Offices and Stations for their districts.

Section 8.

A fee for these declarations is to be paid for each person in accordance with section 3, it amounts to 10 marks in the old Protectorate, 20 marks in the Island Territory and 30 marks in case the contract lasts longer than 2 years.

If a labour contract or agreement is renewed or prolonged, the same fees are charged.

Section 9.

Infringements of the provisions of this Order are punished by a fine not exceeding 600 marks or by imprisonment for a period not exceeding 3 months.

Section 10.

This Order comes into force on April 1st, 1909.

The non-indigenous natives already settled in the Protectorate on that day are bound to report themselves in accordance with section 2 within a space of 3 months; in accordance with section 3 the employers must, within the same period, report the names of the workman in their service on the day when the Order comes into force.

Section 11.

On the day when this Order comes into force the following will be cancelled :—

The Order of the Governor of German New Guinea of February 1st, 1904, concerning the immigration and introduction of Chinese into the Protectorate of German New Guinea with the exception of the Island Territory of the Carolines, Palew and Marianne (Deutsches Kolonialblatt, 1904 page 253) and the provisions for carrying out this Order, of February 1st, 1904, also the change in the Order regarding the engagement and introduction of coloured workmen of January 20th, 1907. The Calendar of the University for 1909-1910 is now under preparation. That portion of volume II of the Calendar relating to the "Alphabetical List of Graduates" is carefully revised from year to year by the University Office. The Registrar will be obliged to graduates and others for any information that would enable the office to correct the list and bring it up to date as far as possible.

4. All existing and customary rights of Government and of the public in all existing roads and paths and to streams of water in the land shall be reserved.

5. All persons having claims on the said lands incompatible with the sale as herein notified are hereby required to prefer their claims on or before the day aforesaid to the undersigned.

The sale will be stopped or postponed as the case may require—

(1) If the applicant fails to deposit the charges for survey and demarcation of the lands where such survey or demarcation is necessary.

(2) If the application has been withdrawn by the applicant and the Collector decides in the public interests not to proceed with the sale.

(3) If the survey and demarcation of the lands have not been completed.

(4) If the sale has been ascertained to be objectionable on public grounds.

(5) If any claim of private ownership or exclusive occupancy or of any other right incompatible with the disposal of the lands under these rules has been preferred and is pending or is established.

The sale will be made subject to the following conditions :—

CONDITIONS OF SALE.

1. That the highest bidder above the upset price shall be the purchaser of the lot, and if any dispute arise between two or more bidders at the same price, the lot shall be immediately put up again at the last preceding undisputed bidding and re-sold.

2. That immediately after the lot is knocked down the purchaser thereof shall pay to the Collector or the officer authorized by him to conduct the sale a deposit of Re. 10 per centum in part-payment of his purchase money and shall at the same time sign an acknowledgment in Form Y.

3. That the purchaser shall, within thirty days from the day of sale, pay to the Collector the residue of his purchase-money, and shall thereupon receive a patta for the premises in Form Z.

4. That every person desirous of becoming a purchaser is to satisfy himself as to the identity and correct description of the property and the measurement and boundaries of the premises previous to the sale, as by having the lot knocked down to him, the purchaser thereof shall be held to have waived all objections to any mistakes that may afterwards appear to have been made in the description of the premises, as well as to any other error whatever as to particulars of the property.

5. That if from any cause whatever the purchase shall not be completed by the 30th day from the day of sale, then the purchaser shall pay to the Collector interest at the rate of Re. 12 per cent. per annum on the remainder of his purchase-money from the day of sale until the purchase shall be completed, without prejudice nevertheless to the right of re-sale reserved by the following condition, provided, however that the whole of the purchase money with interest shall be paid within one year from the date of sale.

6. That if the purchaser shall neglect or refuse to comply with the above conditions or any of them, his deposit money shall be forfeited, and retained by Government, and the Government shall be at liberty to re-sell the lot either by public auction or private contract without the necessity of previously granting a patta to the purchaser; and the deficiency, if any, arising from such re-sale, together with all expenses attending it, shall be made good by the purchaser at the present sale who shall so neglect or refuse as and for liquidated damages.

The Standard Barometer and Thermometers are read at 8 A.M., 10 A.M., 4 P.M. and 8 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the reservoir of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 21·32 inches, the average due for the same period being 3·09 inches.

There were 17 calm hours during the month. The resultant corresponding to the above numbers is represented by a S E. by S. wind, blowing with a uniform daily velocity of 123 miles.

The following are the chief abnormal features of the weather that prevailed at Madras during April; temperature was lower than usual both by day and night during the greater part of the period; the air movement was much lighter and more easterly in direction than usual and hence the normal land-sea winds were not nearly so strong and persistent as they generally are in April; rainfall was frequent and occasionally heavy, the total fall being about twelve times the average and about three-fourths of the normal rainfall for October. Over the Presidency, generally the weather was cooler and rainfall heavier than usual. The meteorological conditions determining this abnormal weather were no less remarkable. The chief of these were the persistent low pressure area in the south of the Bay and Ceylon, and the feebleness of the hot weather depressions in the Deccan and the north of the Bay. On several days pressure was highest in the north of the Presidency and lowest in Ceylon and the pressure distributions and air movement were more typical of November than April. These were accompanied or followed by thunderstorms and showers over a wide area, the unusual rainfall being as in November probably derived from equatorial regions. At Madras thunderstorms occurred on five days, distant thunderstorms on three other days, and lightning was recorded on four other days.
